January 6, 2016

Dear Giuseppe,

I write to thank you for your service to Eisenhower Fellowships as a Global Fellows Network Council member. Your term, which officially concluded in the past month, was marked by a period of high activity and productive outcome for the network. Network chapters around the world now number 44, and Eisenhower Day of Fellowship celebrations are considered regular events with hundreds of participants in and outside of the network attending.

The nominations and recruitment process has been enhanced with an on-line application process and EF is planning its first ever Africa Program for 2016. Additionally, your term culminated in a highly successful Women's leadership Conference in Miami, which allowed Fellows to renew and strengthen international dialogues and served as the first major collaborative event across five distinguished international fellowship organizations.

The continuation of successful MNP, USA and SRP/CIP (single region and common interest) programs each year have all benefitted from your time and efforts in the nomination and recruitment processes.

My colleagues at EF headquarters and I, as well as our Trustees and sponsors, are extremely grateful to you for giving of your time and talent to further strengthen Eisenhower Fellowships as a world class institution. You truly embody the EF ethos of "leaders bettering the world around them."

I trust you will continue to be an active participant in the unique network opportunities Eisenhower Fellowships provides in your country, the U.S. and elsewhere in the world.

Best wishes for the New Year!

Regards,

George de Lama
